

K-Love is the only radio station I listen to as it is positive and uplifting. If K-love were to be displaced by an LPFM I would not listen to the radio at all. The public's interest is served by K-Love in that it provides an alternative to all of the rest of the stations that promote the same garbage. Please don't allow the LPFM's to displace K-LOVE. It would not be good for the community.  
Thank you.
